

Mile Lane Surgery

Year ended 31 March 2020

Publication of GP Net Earnings

All GP practices are required to declare the mean earnings (e.g. average pay) for GPs working to deliver NHS services to patients at each practice.

The average pay for GPs working in Mile Lane Surgery in the last financial year was £65,278 before tax and National Insurance. This is for 2 part time GPs and 1 locum GP who worked in the practice for more than 6 months.

However, it should be noted that the prescribed method for calculating earnings is potentially misleading because it takes no account of how much time doctors spend working in the practice, and should not be used to form any judgment about GP earnings, nor to make any comparison with any other practice.
